

# TUDOR PLACE

## *The Landmark Society*

---

Your membership contribution of \$500 entitles you to membership in the Tudor Place Landmark Society.

This special group of donors is dedicated to helping Tudor Place achieve our mission of preservation and education. Whether it's collaborating with archeologists on the grounds, engaging architectural historians to study the mansion's construction, leading schoolchildren on exploratory tours, or conserving important objects from the Washington Collection, Landmark Society supporters play a leading role in everything we do.

Landmark Society members provide the extra operating support that enables us to accomplish so much each year. In addition to all the benefits of general membership, Landmark Society provides unparalleled access to the historic house and its contents, invitations to private lectures and trips led by noted scholars of art, architecture, and history, with an emphasis on new research and discoveries, and opportunities to socialize with others who share your commitment and passion for preserving a great historic legacy.

Above all, you will have the satisfaction of knowing that your support enables us to reach new heights each year in preservation, interpretation, and education.
